2024

Texas A&M University

College Station, TX

BBA - INFORMATION AND

OPERATIONS TECHNOLOGY

2005

OBJECTIVE

Passionate and detail-oriented professional with a successful background in the culinary arts, seeking to transition into the dynamic field of software development. Leveraging a solid foundation in problem-solving, creativity, and teamwork cultivated in the fast-paced kitchen environment, I am now dedicated to applying these skills to the world of coding.

My ability to thrive in high-pressure situations, coupled with a commitment to continuous learning, positions me as a resilient and adaptable candidate ready to contribute innovative solutions in the tech industry.
